PROFESSIONAL SUMMARY

Salesforce Administrator at Accenture on the Repsol account, supporting the Electricity and Gas teams with user and security administration, environment support, ServiceNow incidents and release validation in Azure DevOps. Trained in Web (DAW) and Cross-Platform (DAM) Application Development, with previous experience as an SAP ABAP developer and on payment kiosk software.

WORK EXPERIENCE

Business Architecture Associate (Salesforce Administrator) Jan 2026 – Present
Accenture España | Client: Repsol (energy sector) | Málaga, Spain

- Manage users, roles, profiles, permission sets, queues, public groups and delegated administration.
- Support Production, QA and Pre-Production environments, running controlled scripts and consistency checks.
- Handle incidents and change requests in ServiceNow, from triage to resolution follow-up.
- Validate releases in Azure DevOps: deployment checks, destructive changes, PR reviews and branch consistency.
- Maintain Flows, Validation Rules, Objects, Record Types, Approval Processes and Email-to-Case.
- Support the Electricity and Gas business teams during release windows and help reduce technical debt.

SAP ABAP Developer Mar 2025 – Jun 2025
Accenture España | Málaga, Spain

- Built ABAP reports, maintained Data Dictionary structures and developed BDC interfaces.
- Worked on ETL processes (extraction, transformation and data validation) and improved code performance.
- Released transports to higher environments with SAP Workbench and supported live client systems.

Junior Software Developer Mar 2024 – Jun 2024
Sepalo Software | Córdoba, Spain

- Developed features for self-service payment kiosks used by town councils across Spain (certificates, taxes and fees).
- Worked with Angular, TypeScript, .NET (C#) and MySQL in an Agile team, including testing and documentation.
